On 5 April 1951 at 10:20 a.m., previously unloaded billeting equipment was seen being stored between the classification tracks at the Jueterbog (N 52/E 68) railroad station. Four two-wheel generators and a van with the inscription Rutenberg or Rotenburg-Gera (M 51/K 06) were also seen there. An officer supervised the transportation of the equipment by truck.

The arrival of air force troops continued until 9 April. The troops then left in the direction of the Reinsdorf (N 52/E 78) - Illmersdorf (N 52/E 87) area. * 25X1
